## The Commonwealth Bureau of Soil Science

Director ... ..	G. V. JACKS, M.A.
Consultant Director ...	SIR W. G. OGG, M.A., PH.D., LL.D.
Assistant Director ...	W. D. BRIND, B.Sc.
Assistants ... ..	KATHLEEN H. CARVER, B.Sc. M. KATHLEEN MILNE, B.Sc. I. SZLADITS, PH.D. NORAH J. WATTS, M.A.

Senior Clerk ... ..	CYNTHIA M. HORN
Clerks ... ..	MARGUERITA D. PAYNE, IRIS SIMP- SON, RITA M. STARKINS

The Bureau is one of ten Commonwealth Agricultural Bureaux, and was established at Rothamsted in 1929. Administratively and financially the Bureau is distinct from the Station, but the closest collaboration exists in the work of the two. The Director of the Station is Consultant Director of the Soil Bureau.

The function of the Bureau is to assist workers in soil science throughout the Commonwealth by providing technical information, by promoting contact between them and by rendering any technical assistance possible when they are in this country. A bi-monthly abstract journal *Soils and Fertilizers*, covering the literature of soil science, fertilizers and the culture of field crops throughout the world, is published, together with occasional monographs—*Technical Communications*—on subjects of general interest. To facilitate its work, the Bureau seeks to be well informed as to the personnel engaged in soil work in the Commonwealth and the problems on which they are engaged. Each Government has been requested to nominate one of its staff as Official Correspondent to the Bureau, who acts as liaison officer in Bureau matters and assists in the collection and distribution of information. The issue of technical information is usually free to all workers in soil science who ask the assistance of the Bureau.
