Photographs - 1. Broadbalk Wheat

Rothamsted Research

Rothamsted Research (1969) *Photographs - 1. Broadbalk Wheat* ; Rothamsted Experimental Station Report For 1968 - Part 2, pp 1136 - 1136 - DOI: <https://doi.org/10.23637/ERADOC-1-2>

1. Photographs of demonstrations prepared by Lawes and Gilbert in 1878 and by Russell in 1943 which show the similarity in response of winter wheat to fertilisers over the period of the experiment. (The difference in straw length between the two years is irrelevant as the varieties changed between 1878 and 1943, and the characteristics of the two seasons were different.)

Treatments: Plot 3, unmanured; plot 5, PKNaMg; plot 6, N₁PKNaMg; plot 7, N₂PKNaMg; plot 8, N₃PKNaMg.
