ROTHAMSTED RESEARCH

Mission and Structure

**The Mission of Rothamsted Research is:
To be a world leading scientific research establishment making significant contributions, nationally and internationally, to the management of agricultural land and the environment through innovations that lead to sustainable products and practices reducing reliance on non-renewable inputs.**

Rothamsted Research will accomplish its Mission by:

- Working with all stakeholders to achieve a shared vision of what can and should be achieved;
- Recruitment, retention, direction and motivation of talented scientists, other professionals and support staff;
- Provision of an efficiently managed and stimulating environment with access to first-class facilities;
- Concentrating on activities where an internationally competitive position has been or can be established;
- Forging mutually beneficial strategic alliances and collaborations;
- Operating communication mechanisms and establishing partnerships that ensure rapid and effective application of valuable new knowledge;
- Continuously renewing expertise in relevant disciplines;
- Ensuring that discoveries achieve practical impact as quickly and effectively as possible
