Rothamsted Research (1949) Contents 1948; Yields Of The Field Experiments 1948, pp 2 - 3

Rothamsted Experimental Station
Harpenden

Lawes Agricultural Trust

RESULTS

of the FIELD

EXPERIMENTS

1948

The summaries given in this report are similar to those contained in the appendices to the Annual Reports of the Station before the war. With one or two special exceptions only experiments conducted at Rothamsted and Woburn are included. The design and supervision of these experiments are the responsibility of the Field Plots Committee (present members: E.M.Crowther (Chairman) H.V.Garner (Secretary), H.H.Mann, J.R.Moffatt, D.J.R.Watson, F.Yates). The results of series of experiments conducted on commercial farms (such as the factory series of sugar beet fertilizer experiments) will be published elsewhere.

Reports covering the war years are being prepared.
