APPENDIX C

Garden Inventory - 1942.

This inventory was taken at the start of the army's requisition of the manor and gardens. It provides an informative and valuable 'snap-shot' of the gardens (and in particular the walled garden) at the end of the period in which the House was still a private residence. I am indebted to Kate Harwood for forwarding it. It came to light after I had completed the 2001 historical report, so it is included here instead.

10th June 1942

Dear Sir,

Rothamsted - Harpenden,
Requisition Herts/2011.

11 JUN 1942

Confirming our phone conversation of a day or two ago, we very much regret to learn that the draft Schedule of Condition sent to you was incomplete. We have now added the items attached to your letter of the 9th January last, and enclose a further draft which we trust you will now find complete. Some of the chattels listed in your Additions and Emendations have been deleted, presumably when Mr. Toombs went through the list with Mr. Moffatt, and we have therefore omitted these items accordingly. We now await your further observations.

Yours faithfully,

W. Barnicot, Esq.,
Rothamsted Experimental Station,
HARPENDEN.

Rumball Edwards

ROTHAMSTED HOUSE, HARPENDEN.

Schedule of Condition as at date of Requisition
taken over by the Military Authorities -
Cultivated Gardens and Grounds at Rothamsted House.
